HIGHLIGHTS

INDEPENDENCE DAY

was celebrated with great pomp on 15th August. The students of the Guide and Scout exhibited great strength and discipline through the formation of Pyramid.

FATHER'S DAY

Students of the Primary Section being assisted by their fathers in Non-Flame Cooking

Competition on the occasion of Father's Day. On 24th June 2023

ADIVASI DIVAS

To embrace the diversity, to honour the traditions and to foster progress of the indigenous people of the world, our school

celebrated the 'Adivasi Divas' on the occasion of World Indigenous people's Day on 9th August.

OPEN INTERNATIONAL KARATE CHAMPIONSHIP

"Thanks to our skill classes, our young karatekas - Debadri (VIII) and Rudraksh (V) made us proud at two different national events."

NATIONAL CURRICULUM FRAMEWORK

Technology has advanced to another level altogether and to achieve sustainable development & create more opportunities for students by allowing them to learn & sharpen their skill sets, transforming the education system is crucial. National Education Policy (2020) serves a clear roadmap for achieving excellence, innovation & quality education in the Indian educational system.

Accordingly, we too have made the following modification in our Curriculum -

- Compulsory coding learning and other skill development for classes VI to XII
- Co-scholastic Activities will be done on a regular basis, focusing on overall development of the children
- Examination will be conducted semester wise in the preparatory, middle & secondary classes and month wise in the foundation stage.
- Learning will be more experiential
- Internal Assessment will be done regularly to help our student to perform better and at the same time Teacher's too can mark their progress
- Students of classes IX to XII will be offered multiple subjects, from which they can choose the best suitable ones.
- More emphasis will be put on critical thinking of the students, clearing their conceptual knowledge
- Presently two Indian Languages till class VIII and one Indian language till class XII will be taught compulsorily

The overarching agenda behind these provisions is to ensure that every student has equal opportunities to access quality education, regardless of their socio-economic status or geographic location. This will not only improve learning outcomes but also contribute to the overall development of individuals and the country as a whole.

বারোয়ারি কথা

ইলিকা দাস

বাঙালির বারো মাসে তেরো পার্বনি। সবমাত্র শেষ হল বাঙালির প্রধান উৎসব দুর্গাপুজো। তোমরা নিশ্চয়ই বারোয়ারি পুজোর কথা শুনেছ? সবাই মিলে চাঁদা তুলে সকলের জন্য যে পুজোর আয়োজন, তাকেই বলে বারোয়ারি পুজো। এখনকার বেশিরভাগ পুজোই তাই। কিন্তু জানো কী, এই বারোয়ারি পুজোর শুরু কিভাবে হয়েছিল?

বহু যুগ আগে কেবল ধনী, বনেনদি পরিবারেই দুর্গাপুজো হত। জীকজমক করে এই পুজোর আয়োজন হলেও তাতে সাধারণ মানুষের প্রবেশধিকার ছিল না। একবার হুগলির গুপ্তিপাড়ায় এরকমই এক জমিদারবাড়িতে দুর্গাপুজো দেখতে গিয়েছিল স্থানীয় গরিব গ্রামবাসীরা। কিন্তু তাদের পুজোবাড়িতে ঢুকতে দেওয়ার বদলে অপমান করে তাড়িয়ে দেওয়া হয়। গ্রামবাসীদের এই অপমান দেখে এগিয়ে আসেন সেই গ্রামেরই বারো জন ব্রাহ্মণ বন্ধু। তাঁরা স্থির করেন, প্রতিবেশীদের থেকে চাঁদা তুলে সকলের জন্য পুজোর আয়োজন করবেন। কিন্তু ততদিনে দুর্গাপুজো শেষের পথে। সামনে রয়েছে জগদ্ধাত্রী পুজো। আর জগদ্ধাত্রী তো মা দুর্গারই আরেক রূপ। তাই ঠিক হল, সমস্ত নিয়ম মেনে চাঁদা তুলে এই জগদ্ধাত্রী পুজোই করা হবে সকলের জন্য। আজ থেকে প্রায় ২৭০ বছর আগে হুগলির গুপ্তিপাড়ায় আয়োজিত এই জগদ্ধাত্রী পুজোই ছিল বাংলার প্রথম বারোয়ারি পুজো। বারো জন 'ইয়ারি' বা বন্ধু মিলে এই পুজো করেছিল বলে এর নাম হয় 'বারো ইয়ারি' বা 'বারোয়ারি' পুজো।

পরবর্তীকালে ধীরে ধীরে হুগলির চন্দননগর ও নদিয়ার কুঞ্চনগরেও সাধারণ মানুষের জন্য বারোয়ারি জগদ্ধাত্রী পুজোর প্রচলন হয়। এরও প্রায় ১৫০ বছর পরে কলকাতার ভবানীপুরে সনাতন ধর্মসাহিনী সভার পক্ষ থেকে প্রথম বারোয়ারি দুর্গাপুজোর আয়োজন করা হয়। এই পুজো আজও হয়ে আসছে। বর্তমানে কলকাতায় দুই হাজারেরও বেশি বারোয়ারি পুজো হয়। তবে, 'বারোয়ারি'-র বদলে 'সর্বজনীন' শব্দটিই এখন বেশি প্রচলিত।

Should school children be loved or disciplined by the teachers?

SHARMI ROY

Every schoolteacher would perhaps like to get a quick-fix solution for their dilemma about whether a child should be treated with love (with a fear looming large about the possibility of the child being spoilt) or should he be treated with strictness as a measure for disciplining him (while remembering that the 'rod' has been outlawed!)

Frankly, as a teacher, I don't have that quick fix; but I believe that an ideal teacher will focus on discipline with love and not with fear. However, while loving school children, a teacher must remember that rules and limits should be set beforehand so that school children clearly know their limits. There is no point punishing a child after he has committed something that he did not know was out-of-bounds for him and, also, no point showering love on him for breaking discipline.

A teacher must realise that frequent frowns may frustrate youngsters. To approach with a smile takes care of a lot of things. The students are in our care – not in penal custody. And, hence, this balance between discipline, teaching and love is so important to be understood. Teachers have to remember not to offend the children. Their problems should be patiently heard so that they can openly speak. Communication skill is the key and it can minimize misunderstandings.

Children should be given responsibilities to perform. This can help pupils be disciplined and at the same time get motivated and develop interests in various activities. In case the child commits a mistake, while recognising the error, the teacher should give logical answers regarding the consequences they might face. Also, the teacher must use the error as a learning experience for the child. Discipline will not come by force but by making students realise logically. Being a teacher, I believe that open communication and two-way communication can help students to be disciplined. Love can be the way out to collaborate with them and make them understand why discipline can be significant.

AFTER CLASS XII WHAT?

TRISHA DUTTA

ANGIRA GHOSH

SARBANI NIYOGI

"Without goals, and plans to reach them, you are like a ship that has set sail with no destination." ... Fitzhugh Dodson

Till Class 12, everything would be smooth sailing for school students. Of course, the tensions of exams, projects and assignments would have been there, but they would not have had to compete with the outside world. After Class 12, when they step out of their comfort zone, then arises the big question. 'WHAT NEXT?'

"THE FUTURE DEPENDS ON WHAT YOU DO TODAY"MAHATMAGANDHI

Some students would have decided their next steps and would be preparing for necessary entrance exams. Some would be applying to colleges of their choice. However, there are a vast majority of students who do not know what to do after school.

Students choose a stream that they think would suit them the best due to various reasons. This could be due to peer pressure, pressure from parents, and lack of knowledge about the subjects.

Looking at their peers who have decided on their next course of action, adds extra pressure on them. They either follow in the footsteps of an older sibling or a senior, but they actually do not know if that is right for them.

Career Options after 12th Science

The scientific stream provides a vibrant professional environment rich in specializations and chances for exploration. There are several career options after 12th science available after 12th science, ranging from extensive research potential to increased innovation and technology. Below are some of the best career options after 12th science:

1. Engineering

Engineering is one of the most popular PCM career options after 12th grade. It is a practical scientific discipline that aids in designing and developing systems.

The best courses after 12th science engineering are

1. Tech in Mechanical Engineering
2. Tech in Civil Engineering
3. Tech in Computer Science Engineering
4. Tech in Biomedical Engineering

2. Medical

The medical profession is esteemed and one of the most well-paid PCB career options. The start of the COVID-19 pandemic has highlighted the necessity of medical experts.

The best medical courses after the 12th are

1. MBBS – Bachelor of Medicine and Bachelor of Surgery
2. BAMS – Bachelor of Ayurvedic Medicine and Surgery
3. BDS – Bachelor of Dental Surgery
4. BUMS – Bachelor of Unani Medicine and Surgery
5. BYNS – Bachelor of Yoga and Naturopathy Sciences
6. BHMS – Bachelor of Homeopathy Medicine and Surgery

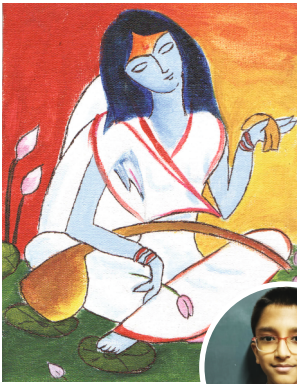

3. Biotechnology

Biotechnology employs cellular and bio molecular processes to develop products and services that benefit both humans and nature.

Students with a Biotech degree can work in a variety of sectors, including

1. Healthcare
2. Genetic Engineering
3. Textile industry
4. Cosmetics

to be continued.....

বৃষ্টি

বৃষ্টি তোমায় রাখব মনে, খেলার স্মৃতি তোমার সনে।
তুমি আমার খেলার সাথী, সকাল-বিকাল, সন্ধ্যা-রাতি।
পড়ছ তুমি টাপুর - টুপুর, টলটলে জলে, ভরছ পুকুর।
বলছ আমায়, 'চল রে খুঁকি- ঝলমলে রোদ দিচ্ছে 'উকি'।
রাস্তা জুড়ে রঙের মেলা, বৃষ্টি জলে আমার খেলা।
খেলার শেষে আদর মেখে, সুখের ছবি সবার চোখে।
ঘুম ভেঙে ওই জেগে দেখি - বৃষ্টি - বাদল কোথায় ? একি!
কল্পনা আজ বৃষ্টি হয়ে, সুখের স্মৃতি আনল বয়ে।

THE MARKET STORY

In the Market Store
where there is a sliding door
Far from the shore
There a lady standing
buying bread from a store.
A Lady Sat on the floor
in a heavy down pour
She was waiting for the bus
A man selling her tooth bursh
When the bus arrived it crushed
The Road divider an there was a rush.
Now the Bus Driver is jailed
where he will not get bailed
he can't sell the tickets now
in the Prison the are stowed

THE STORY OF SMALL CUTE DOG

Once upon a time there was a cute dog whose name was Jommy. He used to sit on a chair the whole day and watch his friends play outside. He wished that he too could play with them. But unfortunately his master did not allow him to go outside the boundary of the house and play like the other dogs. dag he was determined to leave his masters house. He forcibly broke the chain tied around his neck and ran away. As he ran towards the road a car suddenly rushed towards him. Tommy was scared and could not move. The Car ran over it. The driver stopped and felt sorry for the dog. He leached for his master with the help the local people and informed him a but the death of his day. The master was heart broken and sat down crying the ground.
