

Nopany High School holds annual exhibition

The annual academic exhibition of Nopany High School, 'Nerdnia', was organized on June 28 which witnessed great enthusiasm and participation from children across all classes. Children studying in class Nursery to XII had an unique opportunity of exploring as well as expressing their creative scientific ideas in the form of activities, models and projects. The students were at their innovative best as they designed their own air coolers, energy transformation machines, aerodynamic mod-

els, active volcanoes and new ways to Save Earth. The event in itself ignited the scientific curiosity in children and gave them a platform to give concrete dimensions to their ideas from the zone of imagination to realism. Apart from models and experiments based on Physics, Chemistry and Biology, students also made impressive charts based on Economic, Accounts, English Literature, English Language and on vernacular languages, Hindi and Bengali. It was exciting to see the various pieces of handwork of such high standards

as each item was rendered carefully and lovingly without the slightest trace of sloppiness. The coordinated efforts of the school committee, the teachers, the stu-

dents the supportive parents, resulted in the exhibition turning out to be a true success thereby making true the saying, 'Teamwork makes the Dream work'.
